Submitted herewith are copies of the English and foreign-language International Search Report and of an official action issued by the German Patent and Trademark Office in connection with the German patent application the rights of priority of which are claimed for the instant application, together with copies of the references cited in the search report and action, it being noted that one reference is cited in both documents. The relevance of the references cited in the International Search Report is shown in that Report, and the relevance of DE 41 15 425 C1 cited in the German official action but in the International Search Report is shown in that German official action, see page 3, lines 11-13, which, in translation, read as follows, it being noted that this German patent is, in the cited passage, referred to as "Publication 2"):

Claim 1 of Publication 2) shows that it is known to carry out the calibration by means of a predetermined quantity of a calibrating gas which contains an element corresponding to the water volume substance, such as carbon and/or nitrogen.

Also submitted are copies of three of the four references cited in the text of the instant application which are not cited in the International Search Report or in the German official action, the fourth reference being among those cited in the International Search Report. The text of the application shows the relevance of the three references involved.

A Form PTO 1449 listing the above-mentioned ten references is attached.
